Getting to Know Your Phone

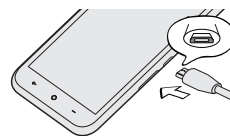

Note: For more information, visit:
att.com/DeviceSupport

Getting Started

Charge the phone

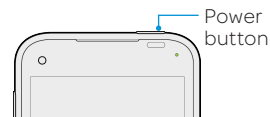

- ① Connect the USB cable to your phone.
- ② Insert the other end of the USB cable into the power adapter.
- ③ Plug in the power adapter to an electrical outlet to start charging.

Important: Please use the power adapter and USB cable that came in the box for optimum battery performance.

Turn on your phone

Press and hold the power button on the top panel.

The first time you turn on your phone, you'll be guided to choose the default language, enable location services, and more.

To lock and unlock the phone, press the power button briefly.

Connect to Facebook

After initial setup, log into Facebook to get the best experience on your phone.

Log into Facebook

- ① Tap **Log into Facebook**.
- ② Sign into your Facebook account. Or to create a new account, tap **Sign Up for Facebook**.

Update your contact info

Make sure you add your new number to your Facebook account.

- ① Open the **Facebook** app.
- ② Tap , then tap your name.
- ③ Tap your name, then tap **About** (under your cover photo).
- ④ Tap **About**, then scroll down to the Contact section to update your first phone number.

Note: Learn more about Facebook Home: facebook.com/about/home

Cover Feed

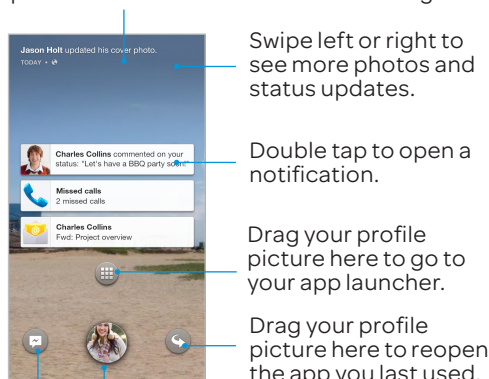

Stay in touch and get the latest updates from your friends right on your cover feed.

See a stream of recent photos and posts from your News Feed.

You can also check if you have any notifications, such as missed calls.

See what your friends are up to

Double tap a post to like it. Press and hold a photo to zoom out and see the full image.

Press and hold to show the options.

Drag your profile picture here to open Facebook Messenger.

App Launcher

To open the app launcher from your cover feed, press and hold your profile picture, then drag it to .

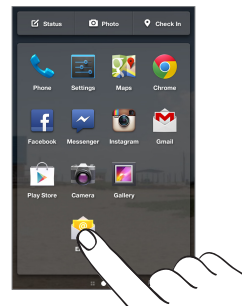

Share directly to Facebook:

- Tap  to post a status.
- Tap  to post a photo.
- Tap  to check into a location.

Customize your app launcher

You can add your favorite apps to the app launcher for easy access.

- ① From the app launcher, swipe right to see a list of all your apps.
- ② Press and hold an app to drag it to your app launcher on the right.

Google Play™ Store

Google Play Store is the place to go to find a variety of free and paid apps and more for your phone.

- ① Open the **Play Store** app.
- ② Browse by featured apps or search for the app you want, then tap an app.
- ③ Tap **Install** (for free apps) or the price button (for paid apps).
- ④ If you agree to the conditions, tap **Accept & download** or **Accept & buy**.

Note: A Google Wallet™ payment method is required to purchase a paid app. You need to associate a valid credit card or debit card to your Google Wallet account to purchase a paid app.

Allow app updates

Make sure you're always using the best version of Facebook by allowing automatic updates.

- ① Open the **Play Store** app. Log in if you haven't yet.
- ② Search for the Facebook app.
- ③ Tap **Allow automatic updating for Facebook** to make sure your app stays current.

Contacts and Phone calls

Add a new contact

Sync contacts from online accounts like Google® and Microsoft® Exchange ActiveSync®.

- ① Open the **People** app, then tap .
- ② Choose an online account to sync.
- ③ Enter the contact information, then tap **Done**.

Make a phone call

- ① Open the **Phone** app, then do any of the following:
 - Enter a phone number, then tap .
 - Tap , browse through your contact list, and then tap a contact.
- ② To hang up, tap .

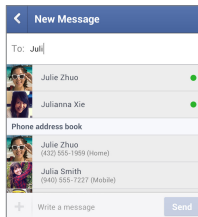

Check your voicemail

- ① Open the **Phone** app.
- ② Press and hold the number 1 key.
- ③ Enter your passcode, if you use one.
- ④ Follow the voice prompts.

Facebook Messenger

Use the Facebook Messenger app to start private conversations with your friends or to send text messages.

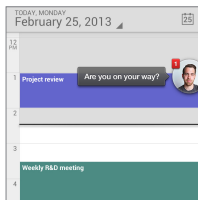

- ① On the cover feed, press and hold your profile picture, then drag it to .
- ② Tap , then choose a friend to message or type a mobile number to send a text.
- ③ Type your message, then tap **Send**.

Message through chat heads

When a friend sends you a Facebook message, you'll see chat heads appear even while you're using other apps.

- Tap chat heads to open the message.
- To close all chat heads, drag the profile pictures to .
- Drag chat heads to move them around your screen.

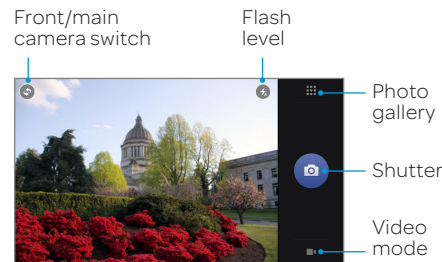

* Messaging rates apply.

Facebook Camera

Take and post photos

Snap, tag, and share photos on the go.

- ① From the top of the app launcher, tap  **Photo**.
- ② At the bottom of the photo gallery screen, tap .
- ③ Point the camera at what you want to capture, then tap .

- ④ After taking a photo, tap .
- ⑤ To tag a photo, tap a photo thumbnail, and then tap your friends' faces.
- ⑥ Tap  on photos you want to post, then tap .
- ⑦ Add your description, then tap **Post**.

NFC & Android Beam

With the built-in NFC (near field communication), you can share content such as a web page or contact info to someone's mobile device in an instant.

Turn on NFC and Android Beam

- ① Open the **Settings** app.
- ② Under **Wireless & networks**, tap **More**.
- ③ Make sure that the **NFC** and **Android Beam** options are turned on.

Share content with NFC

- ① Make sure that both devices have NFC and Android Beam turned on.
- ② While viewing the content that you want to share, hold your device and the other device back to back. You'll hear a sound and both devices will vibrate slightly when connected.
- ③ Tap the screen. The shared content appears on the recipient's screen.

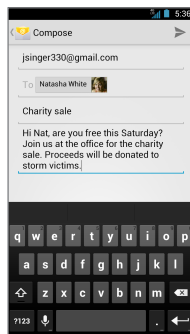

Email

Set up email

- 1 Open the **Email** app.
- 2 Enter your email address and password.
- 3 Choose the type of email account to set up.
- 4 Follow the onscreen instructions to complete setup.

Send an email

- 1 Open the **Email** app.
- 2 Select the email account that you want to use.
- 3 On the account inbox, tap .
- 4 Fill in one or more recipients.
- 5 Enter the subject and your message.
- 6 To attach a photo, press , then tap **Attach file**.
- 7 Tap . Or, to send it later, tap .

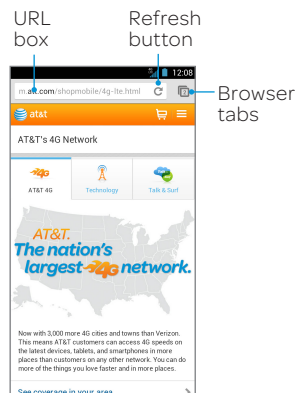

* Corporate email requires an enterprise data plan.

Internet

Browse the Web using Google Chrome™

- 1 Open the **Chrome** app.
- 2 Tap the URL box on top of the screen.
- 3 Enter the webpage address or your search keywords.

- 4 Use your fingers to pinch or spread the screen to zoom in and out.
- 5 To open more browser windows, tap .

Wi-Fi® & Mobile Hotspot

Connect to a Wi-Fi network

- 1 On the All apps screen, tap Settings.
- 2 Turn on Wi-Fi using its On/Off switch.
- 3 Tap **Wi-Fi**, then choose a Wi-Fi network to connect to (secured networks require a passkey).

Tethering and Mobile Hotspot*

- To use tethering, attach the device you want to tether to your phone with a USB cable. On the All apps screen, tap **Settings > More > Tethering & portable hotspot**. Select the **USB tethering** option.
- To enable a portable hotspot, tap **Settings** on the All apps screen, then tap **More > Tethering & portable hotspot > Set up Wi-Fi hotspot**. Enter your hotspot settings, then tap **Save**. Select **Portable Wi-Fi Hotspot** to turn on.

* Data charges may apply.

Network Notifications

Your 4G LTE™ wireless device will indicate which of AT&T's wireless networks you are connected to. A network indicator does not necessarily mean that you will experience any particular upload or download data speeds.

-  Connected to AT&T's 4G LTE network.
-  Connected to AT&T's HSPA+ network. AT&T's HSPA+ network is capable of delivering 4G speeds when combined with enhanced backhaul. 4G availability is increasing with ongoing backhaul deployment.
-  Connected to AT&T's EDGE/2G network.

Limited 4G LTE availability in select markets. LTE is a trademark of ETSI. Learn more at att.com/network. A network indicator does not necessarily mean that you will experience any particular upload or download data speeds. Actual speeds depend upon a variety of factors, including the device, network utilization, file characteristics, terrain, etc. Learn more at <http://www.wireless.att.com/learn/articles-resources/wireless-terms.jsp>, your AT&T Wireless Customer Agreement, Section 3.2 Where and How Does AT&T Service Work?
